

250 Series

Medium duty V-style, encapsulated HD valve seat ensures the best flow rate and stable pressure, drop-forged fine brass body and bonnet, 2" durable gauges, compact for medium duty industrial and commercial use.

Item # (SKU)	Gas	Max Inlet (PSI)	Max Outlet (PSI)	Inlet Connection
WC-250-1.4M-AC	Acetylene	350	15	CGA510
WC-250-7M-OX	Oxygen	3000	100	CGA540

350 Series

Heavy duty V-style, encapsulated HD valve seat ensures the best flow rate and stable pressure, drop-forged fine brass body and bonnet, 2.5" durable gauges, built to withstand heavy industrial use, similar performance to 450 series but with smaller body and bonnet.

Item # (SKU)	Gas	Max Inlet (PSI)	Max Outlet (PSI)	Inlet Connection
WC-350-1.4M-AC	Acetylene	350	15	CGA510
WC-350-7M-OX	Oxygen	3000	100	CGA540

450 Series

Heavy duty V-style, encapsulated HD valve seat ensures the best flow rate and stable pressure, drop-forged fine brass body and bonnet, 2.5" durable gauges, built to withstand heavy industrial use.

Item # (SKU)	Gas	Max Inlet (PSI)	Max Outlet (PSI)	Inlet Connection
WC-450-1.4M-AC	Acetylene	350	15	CGA510
WC-450-7M-OX	Oxygen	3000	100	CGA540

260 Series

Heavy duty V-style, piston type actuation, encapsulated valve with PCTFE seat, wide range of flow capacity and pressure delivery, ideal for high pressure uses.

Item # (SKU)	Gas	Inlet Gauge Range	Delivery Pressure	Working Pressure	Inlet Connection
WC-260-50M-N2	Nitrogen	315 Bar / 4500 PSI	50 Bar / 700 PSI	70 Bar / 1000 PSI	CGA580
